PROTEC ST.1016.PR

We offer an extensive range of accessories for the sliding door fitting Protec. Partition walls, room dividers and free-standing glass cabins can be implemented simply and flexibly with a sliding door. Like all our sliding door systems and
Other products will be the sliding door fitting
Protec including all components one hundred percent made in Germany. Maintenance and installation are particularly easy thanks to the well-thought-throuogh design and extensive adjustment options. The track made of solid material ensures excellent running properties. The sliding door system is available in a complete set - whether for a sliding door made of glass, metal, wood or plastic. It carries a door leaf weight of up to 105 kilograms.

Technical highlights from ProTec sliding doors with top rollers

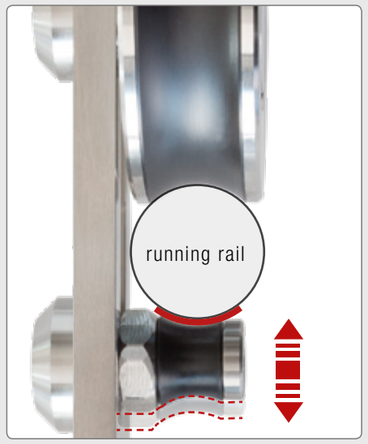
ADJUSTABLE
LIFT-OUT

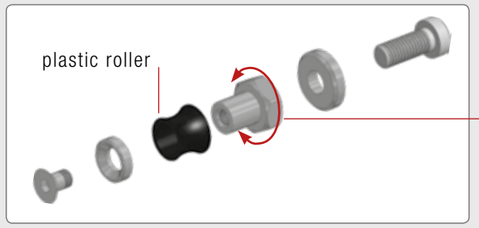
SET SCREW FOR HEIGHT
ADJUSTMENT OF THE DOOR LEAF

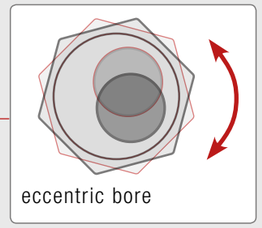
SUITABLE FOR THE PROTEC THE
STOPPING CLASSIC ST.3003.KL

ADJUSTABLE LIFT-OUT

+ Perfect runnability guaranteed - by the construction as a rolling body
+ Perfectly adjustable by eccentric bore
+ Very high stability due to the basic structure made of stainless steel







EASY HEIGHT ADJUSTMENT OF THE DOOR LEAF IN THE MOUNTED STATE

+ Even after mounting the door can be by a threaded pin on the bottom of Trolley very easily readjusted.

This type of height adjustment is standard on all systems **Klassik** and **ProTec**.

It allows subsequently the millimeter precision alignment of the door leaf. Especially with the use of double-leaf systems, the glass edges can be so very simple parallel passages.

RAILS MADE OF SOLID STAINLESS STEEL

+ Virtually silent running, solid material does not generate resonances
+ High load capacity of the entire construction
  (e.g. for partition walls, glass cabins, skylights)

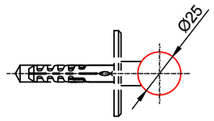
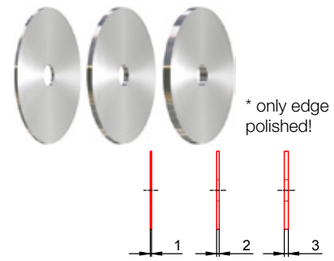
ST.2000 — Round Rail Ø 25 mm



Ø 50 mm wall rosette

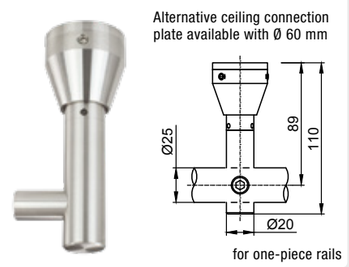
for sliding systems: ProTec, Klassik, Supra, Twin, Duplex, Duplex S, Vario, Spider and Chronos – incl. Drilling

3pcs. set wall shims, 1/2/3 mm



ST.2050

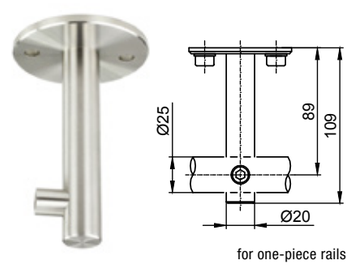
Ceiling Mount with height adjustability



ST.5001

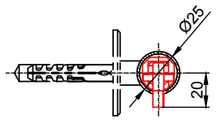
+/- 4 mm Height adjustment after assembly!

Ceiling Mount without height adjustability



ST.5003

ST.3600 — MWE-Soft-Stop for Round Rail Ø 25 mm



NEW Technology!

Attention:

max. door weight 220 Lbs.
Minimum width of the door leaves 485 mm
Cover plate is made of polished aluminum

for sliding door systems: ProTec, Klassik, Supra, Duplex, Duplex S, Twin, Spider and Chronos

Corner rail connector

ST.2090.V

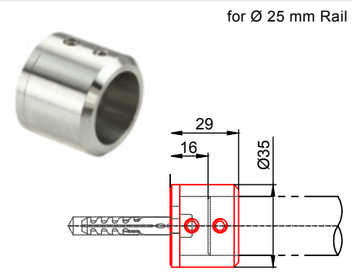
With angle adjustment!

Connector for multi-part rail

ST.2025

or Ø 25 mm Rail

Front end rail mount - for perpendicular walls

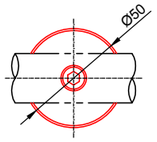


ST.5035

Offset distance of 16 mm required

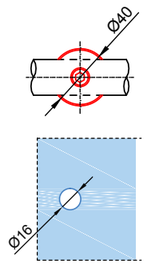
Wall Mount for Round Rail

Wall Projection varies:
17.5-52.5mm Available
Standard-Wall Projection:
17,5mm
(wall to center rail)



ST.2100

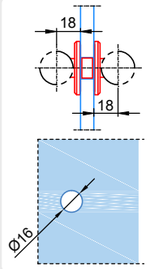
Glass Mount for Round Rail



Glass distance varies:
18-53 mm available
standard glass distance
18 mm (wall to center rail)

ST.2170

Glass Mount for Double Round Rail

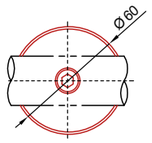


Glass distance varies:
18-53 mm available
standard glass distance
18 mm (wall to center rail)

ST.2174

Wall Mount for Round Rail

More support
compared to
standard rosette,



ST.2100.60

Wall Mount for System Spider

Wall Projection varies:
17.5-52.5mm available
Standard-Wall
Projection:
17,5 mm
(wall to center rail)
