TODAY

BARN DOOR HARDWARE SB.0001

Fully in accordance with the motto „Back to the roots“, only we can offer new “old barn door hardware” that have all the positive properties of the modern age. Whilst heavy doors in olden times were cumbersome and pure usefulness was at the forefront, today we are combining this raw and simultaneously very unusual look with the finest technology, outstanding quality and the simplest handling.

All system components are made from blasted and black burnished S235JR steel. They are suitable for wooden doors with a maximum weight of up to 190 kg.

Overview:

- + Roller, rail and accessories completely made of steel
- + Runs smoothly
- + Suitable for glass, wood, metal or plastic door panels
- + Available with MWE soft stop technology and synchronous technology
- + Door panel weight up to 190 kg
- + Surface: blackened finish, not lacquered
